SLEEK CHIC

Sleek and chic has never looked sexier! To achieve this look, pull your hair back into the perfect ponytail by following Sebastian Professional urban design team director Joey Scandizzo's helpful tips.

1 TREND The ponytail will give you an instant facelift, making your face appear slimmer and more elongated. From international talent like Calvin Klein to homegrown labels like Theresé Rawsthorne, designers adore this simple look for their fashion shows.

2 RUNWAY TO STREET "Comb Sebastian Professional Thickfy Foam into the hair to add some texture, allow it to dry into the hair and then smooth it out," says Joey. "Use a brush to add body to the hair at the point where you want the ponytail to sit. Then use an elastic to secure the hair for the ultimate sleek look. To finish, lightly spray using a strong-hold product like Sebastian Professional Re-Shaper hairspray to hold flyaways in place and to ensure humidity doesn't make your mane frizzy."
