a bit about beauty with...

Jessica Simpson

Jess spills her beauty tips!

Who better to talk beauty with us than one of the most beautiful chicks we know - Jessica Simpson! And, if a love (more like obsession) with lip gloss doesn't qualify her enough to write this page, she's also teamed up with her main hair man, Ken Paves, to create clip-in hair extensions for her Hairdo range. Here's what happened when we emailed Jess...

The first beauty product I ever bought was... Clinique 3-step facial soap.
The "look" you'll never see me trying is... spiral curls, because they just don't work for me!
The beauty phase I'd rather forget is... wearing too much hair spray! You should NEVER hear it crunch.
The beauty process I'm hopeless at is... tweezing and shaping my own eyebrows!
If I was reincarnated as a beauty product it would be... Hairdo clip-in extensions because they're so versatile and you can transform into numerous looks.
My fave era for beauty is... I love the glamorous looks of the 1950s - the starlets of this era epitomised old Hollywood.
The three products I'm always loyal to are... my perfume Jessica Simpson Fancy, and La Mer moisturiser.
On my beauty wishlist right now is... Bronzer, La Mer moisturiser and foundation, Laura Mercier compact, and Chanel lip gloss.

My favourite red carpet looks have been... Ken is always changing my hair with Hairdo extensions. A few of the memorable ones include: 1) CFDA Awards: Ken used Hairdo to create a glamorous chignon. 2) ALMA Awards: Ken used red Hairdo extensions to give me a sexy, wavy style that everyone thought was a wig! But he created the whole look using only Hairdo and some red eye shadow in the front to cover my blonde hair. 3) MTV Awards: Ken and I wanted something with a "Daisy Duke" feel so he used Hairdo to give me length and volume. He also added dark blonde and light brown extensions underneath to make my hair look highlighted at the bottom. It made it a bit more edgy. 4 & 5) Try new Hairdo Tru2Life clip-in extensions, from \$79.95 (datelinecity.com.au).
My dirty beauty secret is... I try not to wash my hair more than once a day, so that I don't deprive it of its natural oils.
The best hair advice I've been given is... don't be afraid to try a new look! Ken and I love to try new styles out on my hair.

Finish these sentences:

Big eye or bold lip? *Made up eyes.*
French mani or colour? *Colour - because there are just so many options!*
Gloss or lipstick? *Gloss - I love Chanel lip glosses.*
Blush or bronzer... *Powder bronzer.*
Beauty is... *I believe that natural beauty comes from happiness within.*
