Shu Uemura Limited Edition False Eyelashes in Rainbow Sensation, \$80

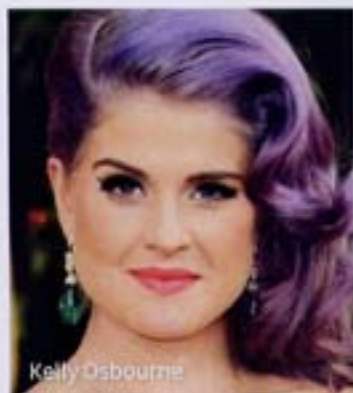

Pro pick:

"I use these thicker individual lashes at the outer corner of the eye for a flared look. You don't need many, so they go on evenly and quickly," says make-up artist Rachael Brook. Modelrock Lashes in Double Style Individual, \$11.95

Top tips

for perfect lashes

- 1 For best results, place glue on the back of your hand and wait a few seconds for it to get 'tacky' before you run the lash through it.
- 2 Tilt your head back slightly so you can see your lash line in the mirror. Starting at the outer corner of your eye, 'wiggle' the lash so it sits right on the lash line, not above it.
- 3 Apply mascara to the lashes first, then place the false set. For a more dramatic look, apply mascara and then apply the lash set, followed again by mascara.
